Exhaust Gas Measurement BEA 950

THE LATEST PREMIUM EXHAUST GAS STATION FOR THE HIGHEST DEMANDS

2024 SPECIAL OFFER

£1000 off RRP

DVSA Connectivity Ready

Lease purchase from

£47.00 a week!

That's one MOT test & it's paid for ...

BENEFITS OF THE BEA 950 AT A GLANCE

- ► Premium emissions test station for demanding workshops
- Sturdy construction
- ▶ Wireless Bluetooth connection between PC, BEA 030 and KTS 5XX for RPM & Temperature
- ► Optional battery operation with the diesel smoke-head (BEA 070)
- ► Short setup and warmup times
- ► Modular expandable solution: works with control unit diagnosis, ESI[tronic] troubleshooting instructions and FSA vehicle system analysis options
- ► Supports the Bosch workshop networking concept Connected Workshop
- ► Fully approved DVSA software

WORKSHOP SOLUTION

The user-friendly exhaust gas measurement system BEA 950 offers everything needed to quickly and cost-effectively test gasoline and diesel vehicles. It is the perfect solution to current and future demands of workshops. All measurement modules, control unit testers, PC, 19" monitor, keyboard and A4 Laser printer come in a compact package on a trolley.

| Technical Data | |
|-----------------------------|---------------|
| Power pack supply votage | 100 – 240 V |
| Operating temperature range | 5 °C to 45 °C |

DURABLE

Thanks to its sturdy construction, the BEA 950 is well-equipped for tough everyday workshop use. In short, it is a premium solution designed for more efficient working processes, satisfying even the highest demands.
